

COMPANY PROFILE

2025

EDGE  ROPE

**We are the pioneer &
leader in Rope Access
industry in Saudi Arabia**

The background features a large, solid green shape on the left side. On the right side, there are white, angular, geometric shapes that resemble stylized letters or architectural elements, set against a green background. These shapes have rounded corners and sharp edges, creating a modern, abstract look.

We specialize in difficult-access jobs. We apply Industrial Rope Access (IRA) Techniques, the safest and most modern method for work at height, elevated, vertical, aid climb, steep or confined-space locations, and it is environmentally friendly. Our equipment and methodology comply with IRATA and SPRAT code of practice and safety.

Introduction

Established in 2010, Edge Rope Company has emerged as a leading entity known for its expert use of rope access techniques. Specializing in maintenance, cleaning, construction, industrial works, survey, inspection services and rope access training. Our company caters to a diverse range of sectors.

Our founding vision was centered on delivering exceptional and professional services to entities such as Oil & Gas Industries, High-rise Buildings, Towers, Industrial Complexes, Stadiums, Shopping Malls, Hotels, Hospitals, and similar structures. Renowned for reliability, a strong reputation, quality delivery of projects, and meticulous professionalism.

As the construction and maintenance sectors have evolved, so has our company. With consistent growth, we have developed a diverse portfolio of multi-disciplinary projects, adapting to the evolving landscape of rope access techniques. Backed by skilled personnel and cutting-edge equipment, our operations incorporate state-of-the-art methods. We take pride in our commitment to excellence and our ability to meet the demands of dynamic industries.

Membership

Edge Rope Company is a Trainer and Operator member of Industrial Rope Access Trade Association (IRATA) and Society of Professional Rope Access Technicians (SPRAT). These memberships strengthen the quality and safety of services and products we offer to our clients and go beyond their expectations.

Edge Rope Company is duly authorized by the Industrial Rope Access Trade Association (IRATA) and Society of Professional Rope Access Technicians (SPRAT) to conduct Rope Access Training and perform work that uses rope access techniques to high-rise towers, low & medium-rise buildings, constructions works, inspection & survey, anchoring system, gas and oil, offshore, and other commercial and industrial works.

EDGE strictly follows and implements the International Rope Access Standards and Code of Practices. We at Edge train and employ licensed and certified technicians to make sure that we meet the set standards.

Thank you and more power.

Respectfully Yours,
Mr. Abdullah Al-Amri

Chief Executive Officer
Edge Rope Company

Endorsement

The services and products that we offer meet IRATA and SPRAT's requirements.

We also make sure that the quality of our training, operation, and services are being audited in accordance to the international standards.

In this light, it would be our great honor to be able to apprise you about our services, products, and our capabilities to deliver quality works putting safety as the top priority. We are humbly looking forward to have the opportunity of being associated with you.

It would be our pleasure to answer any queries from you and give you more details about us. Please feel free to contact us for your requirements at your convenience. We assure you of a quality and prompt service.

The Company

Our Mission, Goal & Vision

Our Mission

- To revolutionize industries through innovative solutions, delivered efficiently and safely, exceeding customer expectations and creating a positive impact on the world.
- To empower Saudi Arabia's transformation into a global leader in sustainability, technology, and economic prosperity by pioneering innovative, efficient, and safe solutions in the fields of rope access services, maintenance, construction, survey and inspection, and facilities and operations management.

Our Goals

- Become the leading provider of cutting-edge rope access services, maintenance solutions, industrial, and construction projects in Saudi Arabia
- Drive innovation and collaboration in the Kingdom's construction, maintenance, industrial, training, and facilities management sectors
- Implement sustainable practices that minimize our environmental impact and contribute to Saudi Arabia's sustainability goals
- Establish a world-class safety culture, ensuring the well-being of our employees, partners, and communities
- Deliver exceptional value to our customers, consistently exceeding their expectations and contributing to the Kingdom's economic growth

Our Vision

- To open opportunities to every member of the society especially Saudi nationals.
- To be recognized as a global leader in innovation, efficiency, and safety, transforming industries and shaping a better future.
- To be recognized as a catalyst for Saudi Arabia's transformation into a global leader in innovation, efficiency, and safety in the construction, maintenance, and facilities management industries, shaping a sustainable and prosperous future for the Kingdom.

Our Core Values

Our Core Values

- Pioneering Innovation, Embracing Efficiency, Ensuring Safety in Delivery

At EDGE, we are driven by a relentless pursuit of innovation, a commitment to efficiency, and an unwavering dedication to safety. These core values define our approach to every aspect of our business, shaping our decisions, guiding our actions, and underpinning our success.

Innovation

- We are not content with the usual or traditional ways. We constantly seek new and better ways to do things, challenging the conventional and embracing the unconventional. We foster a culture of creativity, encourage experimentation, and reward breakthroughs.

Efficiency

- We recognize that every resource matters. We strive to optimize our processes, eliminate waste, and maximize productivity. We empower our employees to find smarter ways of working, ensuring that we deliver exceptional value to our customers.

Safety

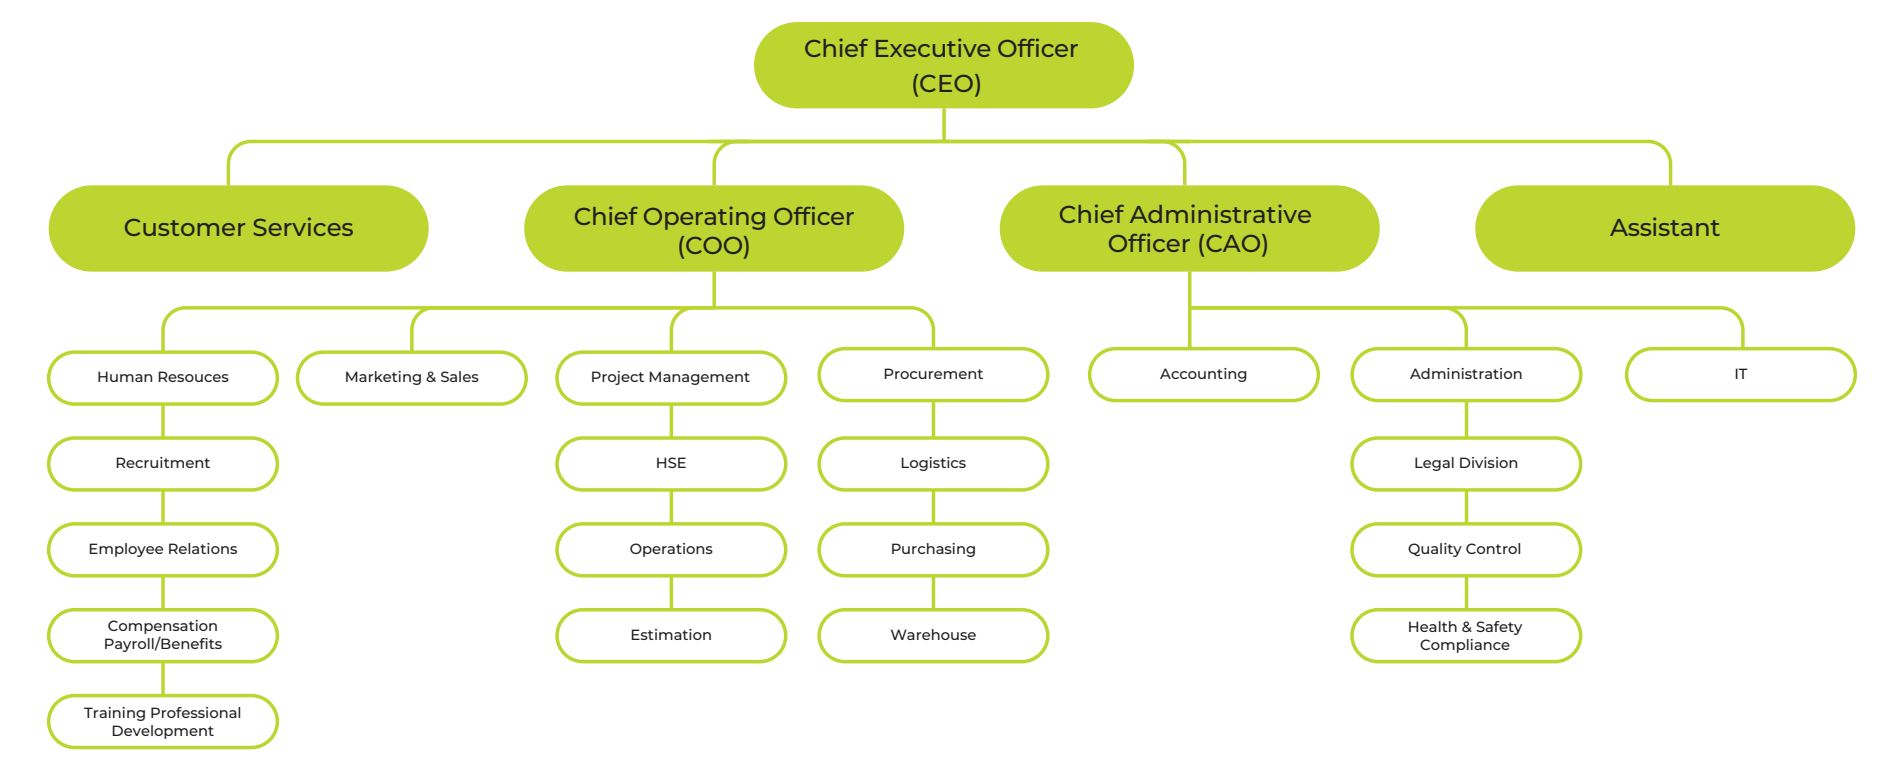

- Safety is our top priority. We are committed to providing a safe and healthy work environment for all our employees. We implement rigorous safety protocols, provide comprehensive training, and foster a culture of safety awareness.

Delivery

- We are committed to delivering exceptional results to our customers. We combine our innovative spirit, efficient operations, and unwavering commitment to safety to consistently exceed expectations.

Background

Rope Access is the safest way and modern method of getting work done at height, elevated, or difficult access work areas. It is a kind of work that uses climbing and caving techniques. However, the industry expanded and developed more techniques to aid workers in accessing areas that are difficult to reach such as high-rise buildings, bridges, oil & gas industries, etc. Rope access is also designed to replace the use of scaffolding and other aerial work platforms for the workers' better safety. Rope access describes a variety of advanced access techniques where ropes and specialized equipment are used as the primary method for providing access and support to workers in their jobs at height or hard-to-reach places.

There are many benefits about rope access. Unlike traditional access methods, custom rope access solutions can be designed to fit various applications. Among other benefits, rope access is:

Versatile

Rope access professionals can apply the techniques to a wide variety of environments, from confined space to tower structures to complicated steel installations.

Cost Effective

Rope access offers cost-effective solutions. With fewer personnel involved, projects can be completed more quickly, resulting in minimal downtime and ultimately reducing overall costs.

Efficient and Quick

Rope access systems are installed and dismantled quickly and require fewer personnel than traditional access methods. Less interference with other facility operations means less disruptions and minimized downtime.

Environmental Friendly

Rope access techniques and equipment has minimal effect on the surrounding environment compared to traditional access methods.

Safe

Across various industries, independent rope access technicians maintain an outstanding safety record, positioning rope access as one of the safest jobs, not only within construction but also in other specialized fields.

Our Services

Edge Rope Company has a wide range of services and products that are always ready for immediate needs. Our well-trained technicians can also do specialized tasks that suit the clients' needs and requirements with a precise working schedule.

1 Inspection

- Structural Integrity
- Risk Based Inspection
- Conventional Non-Destructive Testing
- Specialized Non-Destructive Testing

2 Mechanical

- Piping & fitting
- Cutting & Welding (6G/6GR)
- MEP Installation
- Insulation / Tracing repairs

3 Supply and Installation of Access Solutions

- Rope Access Systems
- Fall Arrest Systems
- Safety Net systems
- Suspended Deck Systems
- Suspended Work Platforms
- Guardrail Systems
- Building Maintenance Units (BMUs)

4 Maintenance

- Facade Cleaning
- Fabric Maintenance
- Facade Painting
- Blasting
- Panel Repair & Replacement
- Glass Replacement
- Sealant Removal & Installation

5 Designing Fabrication and Installation

- Building Access Design
- Anchor Installation
- Installation of Permanent Access systems
- Facade Panels Installation
- Facade LED and Multimedia Lights Installation

6 Other

- Building Wrap Installation
- Art Work Installation
- Rescue at Height
- Rope Access Training

Major Projects

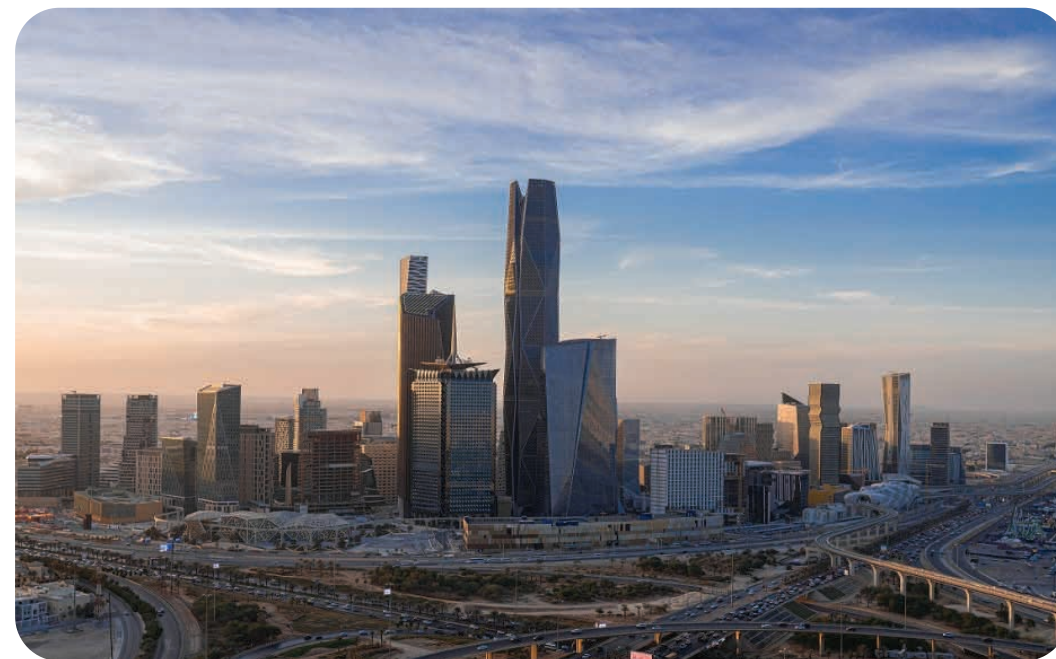

KING ABDULLAH PETROLEUM STUDIES AND RESEARCH CENTER

RIYADH, KINGDOM OF SAUDI ARABIA

Scope of Work: Construction, Facade Maintenance, GFRC Installation, Removal & Replacement, Alignment, Sanding, Repairing, Painting, Glass Panels Removal and Replacement, and Manpower Supply & Installation of Birds Spike

KING ABDULLAH FINANCIAL DISTRICT

RIYADH, KINGDOM OF SAUDI ARABIA

Scope of Work: Façade LED Light Installation, Facade Cleaning (External & Internal), Smoke Detector Alignment, Glass Panel Supply, Removal & Installation, and Painting
